Last spring, the Office of Research & Sponsored Programs Foundation brought [Pivot](#) to HSU as a tool for faculty, staff and students to access and search for external funding opportunities. This year we're pleased to announce the launch of [Engagement Hub](#); a one-stop-shop to access and search for *internal* funding opportunities within the HSU campus community.

When departments or divisions advertise internal calls for funding, mini-grants, or awards, it can often be challenging to know where to look. This new site acts as one central repository for internally funded small grants, awards, stipends, etc... Engagement Hub can bring together all the various pockets of available internal funding into one location where faculty, staff, and students can more easily find and access applications.

Any stateside or auxiliary funding that's available to campus applicants can be linked to Engagement Hub such as: Diversity & Equity grants, RSCA funding, Associate Students events & travel grants, departmental research awards or fellowships for students, and much more... That way our on-campus users can scroll through one directory to find the funding opportunity they're looking for. Engagement Hub can now be easily accessed through your MyHumboldt portal. If your department has an opportunity you'd like to link to Engagement Hub, email engagementhub@humboldt.edu
